WHY EKKO?

A minimalist, self-hostable slideshow viewer for the web.

Documents, amplified.

A sleek, modern UI that makes your slides look their best—no clunky toolbars, just your content.

Perfect on phones, tablets, and even smart boards!

Touch friendly

Intuitive swipe controls that just work.

**Flip through slides as easily as turning pages in a book.
Silky-smooth animations that follow your finger.**

Zero Hassle

No dependency hell. Just download, swap your URL, and deploy.

Download

Replace the default URL

Deploy

Even works on GitHub Pages!
